

Kellitia Kelletii Graphite Sculpture

\$14.95

Item URL: http://www.woodgalleryonline.com/graphitesculpture578_1.php

Kellitia Kelletii a beautiful Gastropod shell that can be found from Point Conception, California to Baja California. Both genus and species names honor Captain Sir Henry Kellet (1806-1875), Commander of a British naval surveying expedition along the Pacific Coast of the Americas. This wonderful graphite sculpture is a work of art as well as a playful writing instrument. Made from composites and pure graphite this sculpture can be used to write or draw on multiple mediums or collected and displayed as an art piece. Measures 4.25" by 3"
