

Oosik Ulu Knife

\$180.00

Item URL: http://www.inscapesgallery.com/knives80_1.php

Artist: Alaskan Souvenir Company

This fossilized bone (Oosik) from a male walrus is what puts a smile on the female of the species. After hundreds of years of non-use, the bone is gathered by Alaska natives who have utilized the knife since at least 1900 B.C. The ulu is quite a versatile knife for kitchen, shop, or outdoor use.
