Artist: John Salene

These functional humidors are beautifully handcrafted and each one is made using lock-miter corner jointery to provide the most sturdy possible construction with raised top and bottom panels to allow for expansion of the wood. They are lined with the very finest available imported Spanish cedar and are finished using only hand rubbed prelude oil, which allows the hardwood to age naturally , thus enhancing its character and beauty. The lid has an almost airtight fit when closed.

SMALL SIZE HUMIDOR (UP TO 25 CIGARS) This Humidor includes the 2 1/4" nonpareil humidifier and is lined with Spanish Cedar as described above. **THIS HUMIDOR DOES NOT INCLUDE A HYGROMETER.** Outside dimensions are 3 5/8" H X 8 1/2" D X 9 1/2" W
